

→ Dosing Pump

Flow & Pressure Range

- **Material Options:**
PP, PVDF, SS316, PTFE diaphragm
- **Pressure Range:**
3—20 bar
- **Material Options:**
PP, PVDF, SS316, PTFE diaphragm

→ High-precision Dosing Pumps

chemical dosing in water treatment

High-precision dosing pumps designed for chemical dosing in water treatment, RO plants, pools, wastewater, process industries, and dosing skids. We supply leading global brands such as Injecta, Seko, Pentair, Jesco, and others with reliable performance and wide application compatibility.

→ Available Brands

- **Injecta (Italy) —**
Compact, efficient, economical dosing solutions
- **Seko (Italy) —**
Industry-standard pumps with advanced control options
- **Pentair (China) —**
Heavy-duty, reliable metering pumps for long service life
- **Jesco / Lutz-Jesco (Germany) —**
High-accuracy, durable chemical dosing technology
- **Other Global Brands —**
Compatible models on request

→ Key Features & Benefits

- Precise, stable dosing output
- Chemical-resistant wet parts
- Manual / Analog / Digital control options
- Stroke length & frequency adjustment
- Wall-mount & skid-mount compatible
- Optional pulse input for flow proportional dosing
- Low power consumption & easy maintenance
